

## **FALL 2025 – Spring 2026**

### **Renovation Projects**

- **WM Children's Area Renovations**

Our goal is to:

1. Purpose build 2<sup>nd</sup> floor space for Sunday Children's LIFE Groups.
2. Secure access to Sunday morning areas for grades 1-5.
3. Decrease Sunday morning travel time for parents of children (and locate parents adjacent to their kids in grades 1-5).

- **WM Young Married Adult LIFE Groups Area Renovations**

Our goal is to:

1. Renovate and repurpose vacated 2<sup>nd</sup> floor children's space for young married adults.
2. Relocate young married adult groups to the most newly renovated spaces.
3. Relocate median adult groups to the 3<sup>rd</sup> floor children's building (C3000's).
4. Relocate transitioning young married adult groups to the 2<sup>nd</sup> floor children's building (C2000's).

### **Calhoun Campus**

- **Near Term Growth**

Our goal is to maximize the growth potential of the Calhoun Campus with dual worship hours at 9:00am and 10:30am. Overflow worship rooms are a potential relief valve once one or both services reach capacity. We recognize that LIFE Group space on Sunday morning is limited, creating a unique challenge for assimilating new members. Other limitations include parking, children's space and volunteer burnout.

- **Future Growth**

Continued growth at our Calhoun Campus can be sustained in one of two ways—through a collaborative merger with an existing church or through the purchase of real estate and the construction of new facilities. We are also on the lookout for large parcels (10+ acres) of real estate on major thoroughfares (Highway 80 and/or Interstate 20). For new purpose-built construction, the projected maximum capital expense will be \$2.5 million after land acquisition.
